<b>NARRATIVE</b>	

On Tuesday, July 9, 2013, at approximately 9:04 PM, suspect Antonio Johnson, DOB: [REDACTED] 1973, was contacted by officers of the Hazelwood Police Department after he was suspected to be an impaired driver; he was contacted in the area of 4600 Aubuchon Rd in the jurisdiction of the Hazelwood Police Department.

While attempting to affect the arrest of Johnson, he assaulted Hazelwood Police Sergeant Norman Mars, DSN 273 and resisted arrest.

He was eventually taken into custody by Officer Mars, Officer Danial Kenner and Officer Jason Corson and transported to DePaul Hospital for treatment.

On Thursday, July 11, 2013 at approximately 4:06 PM, Johnson was pronounced deceased at DePaul Hospital.

Johnson was later conveyed to the St. Louis County Medical Examiners Office awaiting post mortem examination on Friday, July 12, 2013.

See DCI supplement for further.

**NARRATIVE**

Reference should be made to original report number 13-39617 as prepared by Detective Greg Sanders, DSN 3485, Division of Criminal Investigation, Bureau of Crimes Against Persons. The report reflects an Assault on Law Enforcement, involving officers of the Hazelwood, Missouri Police Department; the incident reportedly occurred on Tuesday, July 9, 2013, at approximately 9:04 PM.

The incident occurred in the area of 4600 Aubuchon Road, within the City of Hazelwood, Missouri. The following is an account of the investigation conducted by Detective Sanders.

Reference should also be made to original report number 13-2803, of the Hazelwood Police Department, as prepared by Sergeant Norman Mars, DSN 273, assigned to the Division of Patrol, Hazelwood Police Department. Officers and detectives of the Hazelwood Police Department prepared additional supplemental reports. This original report reflects the detailed account of the incident and investigation conducted by the officers of the Hazelwood Police Department, until the matter was remanded to the St. Louis County Police Department for further investigation.

On Thursday, August 11, 2013, at approximately 5:36 PM, Sergeant Craig Longworth, DSN 3211, Supervisor, Division of Criminal Investigation, Bureau of Crimes Against Persons, was contacted via telephone by Captain Kenneth Jewson, DSN 206, Hazelwood Police Department. Captain Jewson provided a brief synopsis of an incident that occurred approximately two days prior on July 9, 2013.

Captain Jewson explained that on that date at approximately 9:04 PM, Sergeant Mars responded to the area of 4600 Aubuchon Road to investigate the report of a suspected intoxicated driver. Sergeant Mars reportedly made contact with the driver, conducted a roadside investigation into the matter and attempted to affect the arrest of the suspect. Captain Jewson identified the suspect as follows:

Antonio L. Johnson (hereafter referred to as Antonio)

Black Male

DOB: [REDACTED]/1973

SSN: [REDACTED]-5593

Address: [REDACTED]

Telephone: unknown

Captain Jewson further explained that Antonio had resisted Sergeant Mars' commands and efforts to take him into custody for the suspicion of driving while intoxicated. After a struggle with the suspect, Sergeant Mars and two additional officers of the Hazelwood Police

Department successfully subdued Antonio and called for emergency medical service personnel. The call for EMS was reportedly due to the apparent intoxication and small laceration to the forehead of the suspect, sustained during his resistance.

Captain Jewson explained that Antonio was conscious and breathing at the time of EMS transport to DePaul Hospital; however, after being transported from the scene his condition declined for unknown reasons. After arriving at DePaul Hospital, Antonio reportedly lost consciousness and was eventually pronounced deceased on July 11, 2013 at approximately 4:06 PM.

Hazelwood Police Department had conducted an investigation into the matter, prior to and following Antonio's death. Captain Jewson requested that St. Louis County Police also respond to the Hazelwood Police Department; the request was in an effort to obtain further information related to the incident and to further conduct an independent investigation regarding the assault on officers of the Hazelwood Police Department and the subsequent death of Antonio.

Sergeant Longworth directed Detective Greg Sanders, DSN 3485, Detective Joe Percich, DSN 3661, Detective Aaron Schafer, DSN 3569 and Detective John Bradley, DSN 3862 to respond to the Hazelwood Police Department and initiate an investigation. Also responding to assist was Sergeant Longworth. All of the indicated detectives were assigned to the Division of Criminal Investigation, Bureau of Crimes Against Persons.

At approximately 6:35 PM, the detectives from the Bureau of Crimes Against Persons arrived at the Hazelwood Police Department located at 415 Elm Grove Lane, to meet with members of Hazelwood Police Department in an effort to gather facts regarding the incident.

While responding to Hazelwood, Sergeant Longworth also requested that officers of the Division of Criminal Investigation, Bureau of Criminal Identification, Crime Scene Unit, respond to assist with the investigation.

Accordingly, the following personnel from the Crime Scene Unit responded and arrived shortly after the Crimes Against Persons Detectives:

Sergeant Patrick Costello, DSN 2378  
Detective Patrick Nigh, DSN 3482  
Detective Matthew Pyatt, DSN 3167

At the time of Detective Sanders' arrival, the following personnel from the Hazelwood Police Department were present to provide St. Louis County Detectives with information regarding the incident.

Captain Kenneth Jewson, DSN 206  
Sergeant Norman Mars, DSN 273  
Detective Michael Golden, DSN 429  
Detective Brenden Gilbert, DSN 398  
Detective James Petty, DSN 430  
Detective Brian Wilcox, DSN 424  
Officer Daniel Kenner, DSN 407  
Officer Jason Corson, DSN 417

Detective Sanders was presented with the facts and circumstances of the incident. During this meeting, Detective Sanders was informed of the incident location and the identity of responding officers and paramedics involved in the incident. A detailed account of the incident was then provided.

Detective Sanders was informed that just prior to the incident, 911 calls were received that directed officers to respond to the area of Aubuchon Road. Detective Sanders received a copy of the 911 calls for service from Hazelwood Police Department and Bridgeton Police Department, which were later properly packaged and remanded to the St. Louis County Property Control Unit for storage. For full details of the calls in verbatim, reference should be made to the compact discs, which captured the audio-recorded calls for service. The 911 calls can be summarized as follows:

Various male and female callers, informed Hazelwood dispatchers of an erratic, possible intoxicated driver, which was first observed in the area of Charbonier and Riverwood Estates Drive.

The vehicle was described as a gray sport utility vehicle bearing Missouri license plate CH9P4H. The vehicle was later fully identified as follows:

2000 GMC Yukon, Vehicle Identification Number 3GKFK16T7YG109451

Multiple callers reported the driver was operating the vehicle on the wrong side of the road and in an erratic manner, further traveling to the area of Aubuchon Road.

The call was also transferred to Bridgeton Police Department since the driver was operating the vehicle near the venue of both jurisdictions. Further calls were received stating the driver had stopped his vehicle on Aubuchon Road.

Several witnesses that had called to report the incident, were later contacted by Hazelwood Police Department and further by the St. Louis

County Police Department, to provide witness statements regarding the incident. A summary of their statements will be described later in this report.

As a result of the 911 calls for service, Detective Sanders determined that Sergeant Norman Mars, had proceeded to the area of 4600 Aubuchon where he contacted the suspect described above as Antonio; the witnesses that had called 911 were also contacted on scene.

Detective Sanders was also informed that Hazelwood Officer Danial Kenner and Officer Jason Corson had assisted Sergeant Mars with the arrest of suspect Antonio.

In order to obtain a clear and concise assessment of the scene, Detective Sanders, additional St. Louis County Detectives and the above Hazelwood Officers responded to 4600 Aubuchon at approximately 8:20 PM. Detective Sanders obtained a statement from the officers involved, while the described St. Louis County Crime Scene Detectives processed the scene. For details of the investigation conducted by the Crime Scene Detectives, reference should be made to their included supplemental report.

After arriving at the reported scene, Detective Sanders requested that the officers park their cars in close proximity to where they would have parked on the night of the incident. It should be noted that the vehicles operated by the officers on July 11, 2013 were the same vehicles they were operating on the night of the incident on July 9, 2013. Detective Sanders took note of the general scene description and requested that Detective Schafer document the specifics of the scene.

Detective Bradley was asked to document a detailed summary of the marked patrol cars that had been operated during the night of the incident, which were now parked in a similar location as during the incident.

Detective Sanders observed and Detective Schafer noted the incident occurred in the 4600 block of Aubuchon Road. Aubuchon Road is a west to east two-lane roadway, ultimately continuing as Missouri Bottom Road to its west and bordered to the east by Teson Road. The area is primarily rural with acres of farmland and Cowmire Creek. A residence is present at [REDACTED] Aubuchon, which is directly beside the gravel roadway where the incident occurred. The area of this gravel roadway is considered 4600 Aubuchon.

Detective Schafer then specifically directed his attention to this gravel driveway, south of Aubuchon Road. The driveway leads to the rear of a residence designated as [REDACTED] Aubuchon Road and if continued southbound, leads to a dead-end lot containing various construction equipment. The driveway was approximately the width of two vehicles. The driveway

contained varying shapes and sizes of gravel. To the west and east of the driveway were primarily grassy areas.

Detective Schafer directed his attention to the northern end of the driveway, which bordered Aubuchon Road. As explained, fully marked Hazelwood Police Department vehicles were positioned by the officers in the approximate location to where they were at the time of the incident. Positioned at the northwest corner of the driveway entrance was Hazelwood Police Department marked vehicle 102, with the front end facing in a southeastern direction. Positioned near the center of the driveway entrance was Hazelwood Police Department marked vehicle 101, with the front end facing in a southwestern direction. Positioned at the west end of the driveway, south of Hazelwood Police Department vehicles 101 and 102, was Hazelwood Police Department marked vehicle 136. This vehicle was facing in a southern direction. All of the Hazelwood Police Department vehicles were in close proximity to each other.

Detective Schafer noted items of evidentiary value near the center of the driveway entrance and within approximately twelve feet of Aubuchon road.

These items were located atop the gravel rocks and east of the police vehicles. Detective Schafer observed three taser "blast doors", grey in color, and a cluster of fine wire, believed to be from a taser. "Blast doors" are components of a taser, which are designed to break off when the cartridge is deployed.

Detective Pyatt seized all items of evidentiary value located at the scene.

This scene investigation was conducted during dusk, close to the actual time of the incident.

As stated, Detective Sanders directed Detective Bradley to fully identify the three Hazelwood Police vehicles involved in the incident. Detective Bradley noted that all three vehicles were fully marked and equipped with emergency overhead lights. Detective Bradley also observed all patrol vehicles were equipped with passenger side front windshield mounted cameras, which pointed outward with a view of the front of the patrol vehicle.

Detective Bradley observed all three of these camera systems were stamped with model #MDVR2100-RHD GPV2 and a manufacturer as follows:

Classic Public Safety Solutions  
P.O. Box 591  
Dundee, FL 33838  
Phone: 407-590-3164

Detective Bradley directed his attention to fully marked Hazelwood Police Department patrol vehicle identified as HPD 102, which was operated by Hazelwood Police Officer Jason Corson, on the day of the incident:

2007 White Chevrolet Impala  
License plate: HPD 102  
VIN: 2G1WS58R179240882  
Mileage: 53,701

Detective Bradley observed this patrol vehicle was not equipped with a bar mounted laptop system. Detective Bradley observed the camera system mounted in this patrol vehicle was stamped with serial #071126001.

Detective Bradley directed his attention to fully marked Hazelwood Police Department patrol vehicle identified as HPD 101, which was operated by Hazelwood Police Officer Danial Kenner, on the day of the incident:

2012 White Chevrolet Impala  
License plate: HPD 101  
VIN: 2G1WD5E38C1177461  
Mileage: 15,132

Detective Bradley observed this patrol vehicle was equipped with a bar mounted laptop system fully identified as follows:

Lenovo Edge ThinkPad  
Type: 0319-25U  
Serial #LR-7DD9D 11/11  
Product ID 031925U

Detective Bradley observed the camera system mounted in this patrol vehicle was stamped with serial #071012038.

Detective Bradley directed his attention to fully marked Hazelwood Police Department patrol vehicle identified as HPD 136, which was operated by Hazelwood Sergeant Norman Mars, on the day of the incident:

2003 Ford Expedition  
License plate: HPD 136  
VIN: 1FMPU16L43LA88768  
Mileage: 78,862

Detective Bradley observed this patrol vehicle was equipped with a bar mounted laptop system fully identified as follows:

ACER Travel Mate 4720  
Serial #LXTKJ0Z015811003B22000

Detective Bradley observed the camera system mounted in this patrol vehicle was stamped with serial #071012037.

Following the scene assessment, Detective Schafer conducted an area canvass in an effort to contact potential witnesses to the incident. The only structure, residential or commercial, in the area of the incident was [REDACTED] Aubuchon Road.

Accordingly, Detective Schafer responded to [REDACTED] Aubuchon Road and contacted Walt Reaster, who identified himself as follows:

Walt Reaster (hereafter referred to as Walt)

White Male

DOB: [REDACTED]/1990

[REDACTED]  
Cellular Telephone: 937-216-8972

Detective Schafer directed Walt's attention to the evening hours of Tuesday, July 9, 2013. Walt advised he was not at home during this time.

Walt continued that he resides with Daniel Arscott and the property owner is Tommy Teson. Walt provided contact information for both Daniel and Tommy.

Detective Schafer asked Walt if the property contained any video surveillance cameras. Walt stated he did not believe there were any video surveillance cameras, but was not certain.

Walt was unable to provide any further information and the interview was concluded.

Detective Schafer then directed his attention to Tommy Teson who responded to the scene upon conclusion of Detective Schafer's interview of Walt. Tommy identified himself as follows:

Tommy Teson (hereafter referred to as Tommy)

White Male

DOB: [REDACTED]/1957

[REDACTED]  
Cellular telephone: 314-393-8948

Tommy advised he is the property owner of approximately five hundred acres. This includes the immediate area South of Aubuchon Road surrounding the residence designated as [REDACTED] Aubuchon Road. Tommy advised there are no surveillance cameras in the area of [REDACTED] Aubuchon Road. Tommy stated the farm and construction equipment on his property

is owned by Ted Matulewic, which is part of Tommy's company, 5100 L.L.C. Tommy added he does not reside at [REDACTED] Aubuchon Road.

Tommy was unable to provide any further information and the interview was concluded.

Detective Schafer contacted Daniel Arscott at 314-479-3122, who identified himself as follows:

Daniel Arscott (hereafter referred to as Daniel)

White Male

DOB: [REDACTED]/1987

Cellular telephone: 314-479-3122  
[REDACTED]

Detective Schafer directed Daniel's attention to the evening hours of Tuesday, July 9, 2013. Daniel advised he was at his residence and upstairs, when he observed emergency lights activated on police vehicles.

Daniel responded downstairs but never went outside. Daniel observed three or four police vehicles and an ambulance. Detective Schafer asked Daniel if he heard anything. Daniel stated the only sound he heard was a siren. Daniel estimated this was between 9:00 PM and 10:00 PM.

Daniel was unable to provide any further information and the interview was concluded.

This concluded the area canvass of the scene.

After walking the scene and obtaining a summary of Detective Schafer and Detective Bradley's scene description and area canvass, Detective Sanders requested that they attempt to contact witnesses that were reportedly present during a portion of the incident on July 9, 2013.

While the detectives departed to conduct these interviews, Detective Sanders remained on scene and first obtained a statement from Sergeant Mars in reference to the incident.

Sergeant Mars began by explaining that on the night of the incident he received a radio call from dispatchers that numerous callers reported a "careless and imprudent driver" in the area of Aubuchon Road.

Due to a high volume of calls for unrelated incidents, an officer could not be dispatched to the area, so Sergeant Mars said he responded to investigate the report.

Sergeant Mars responded to the area of 4600 Aubuchon Road. As he arrived, Sergeant Mars said he observed a gray sport utility vehicle,

which matched the suspect vehicle description. This vehicle was parked on Aubuchon facing Sergeant Mars. The vehicle turned onto a gravel drive and parked. At the time that the suspect vehicle pulled onto the gravel road, Sergeant Mars said he was facing the car. The driver was described as a white male.

Sergeant Mars also observed another white male and a black male standing on the gravel drive. He said the white male that was parking the vehicle exited the SUV, at which time he ordered the male to sit back into the car. Sergeant Mars explained that he was planning to contact the additional white male and black male as potential witnesses.

The white male driver, later identified as Eric Rapa, explained to Sergeant Mars that the black male (Antonio) that was standing near by, was the actual driver of the vehicle. Rapa was simply moving the vehicle off the roadway.

Sergeant Mars then directed his attention to Antonio to conduct an investigation. Sergeant Mars described Antonio as very tall and of athletic/muscular build, wearing dark shirt, blue jeans and shoes. Sergeant Mars said he requested Antonio's driver's license, at which time Antonio handed Sergeant Mars a Missouri identification card. It was later determined that Antonio was driving while revoked and did not have a valid driver's license.

Sergeant Mars began to ask Antonio basic questions such as where he was going and where he was coming from. Antonio's speech was reportedly slurred and he was difficult to understand. Antonio then told Sergeant Mars that he was intoxicated.

Sergeant Mars reported that he assessed Antonio's eyes and saw that his pupils were dilated; he further said he observed "resting nystagmus", which he immediately associated with potential mental defect, or drug use. Sergeant Mars further described that Antonio's muscles seemed rigid and he was sweating.

After asking Antonio if he had been driving the car, Antonio responded that he had. Sergeant Mars said he informed Antonio that he was under arrest and ordered him to put his hands behind his back. Sergeant Mars said that Antonio did not bring his arms behind him, but lifted his arms straight out and to the sides with his hands even with his shoulders. Sergeant Mars quickly placed a handcuff on Antonio's right arm and then slowly brought his right hand behind Antonio's back. Sergeant Mars told Antonio to bring his left hand behind his back. After Antonio declined to bring his left arm back to be handcuffed, Sergeant Mars said he pulled Antonio off balance and to the ground. He was then able to apply the second handcuff.

Sergeant Mars said Antonio was conscious and speaking, but he could not understand what he was saying. Sergeant Mars directed his attention to witnesses that had remained on scene and he began gathering their personal information. Antonio remained on the ground a few feet away and Sergeant Mars said he was compliant at this point.

Sergeant Mars said he quickly gathered information from the witnesses and then returned to Antonio to stand him up. After believing that Antonio was under control, Sergeant Mars said he told the witnesses that they were free to leave.

Sergeant Mars said he was reluctant to transport the suspect in his car, because his vehicle was not outfitted with a barrier that would separate him from Antonio while driving. Sergeant Mars said he knew that he would have to call for a second car to transport Antonio so he decided to sit Antonio on the ground to await further transport.

As Sergeant Mars touched Antonio's arm to assist him to the ground, Antonio reportedly quickly moved his handcuffed arms toward the ground and attempted to step back through the handcuffs.

Sergeant Mars explained that he feared if the suspect was able to get his hands in front of him, he would not be able to control Antonio. To try to maintain control on the ground, Sergeant Mars pushed Antonio downward. Sergeant Mars said he could barely hold onto Antonio and he continued to try to get his hands under his feet. Sergeant Mars said Antonio seemed to display strength that was above normal.

Antonio also reportedly grabbed Sergeant Mars' leg and groin area and was kicking ("mule kick") Sergeant Mars as well.

When it became apparent that Sergeant Mars was unable to control Antonio, Sergeant Mars' retrieved his taser from his belt holster. He utilized the taser without the cartridge to administer a "drive stun". Sergeant Mars said he did not know how many times he utilized his taser on Antonio. With each time the taser stopped the five second cycle, Antonio would continue to attempt to get his handcuffs in front of him and to resist.

After failing to control Antonio with the taser, Sergeant Mars said he removed his collapsible ASP baton from his belt. Sergeant Mars said he thought he may be able to control Antonio's arms and legs to stop his kicking and attempts to get his handcuffs in front.

Sergeant Mars said he struck Antonio in his upper arm with the baton approximately four to six times. After the strikes were apparently

ineffective, he tried to strike him in the upper leg. Sergeant Mars said he was on his knees and could not administer a full strike.

After the baton strikes were ineffective, he stopped the strikes. At this point, Officer Kenner arrived. Antonio continued his resistance and Sergeant Mars and Officer Kenner tried to utilize the baton to pull his arms upward back up behind his back. They could not control Antonio's arms. Sergeant Mars said he was too tired to continue wrestling with the suspect, so he again deployed his taser with the cartridge attached. Antonio reportedly stopped his resistance when the taser was delivering a stun, however, he continued to struggle when it stopped.

Sergeant Mars said Officer Corson also arrived to assist with the arrest.

Sergeant Mars said with the three officers now present, they were able to utilize Officer Kenner's baton to force his hands back upward to a controlled position. At that time Antonio's resistance ceased. Antonio was then placed on the ground where he rolled onto his side.

Sergeant Mars said he called for an ambulance, due to the small laceration to Antonio's head and his apparent drug intoxicated state.

Antonio was reportedly conscious, breathing heavily and mumbling while the ambulance was en route.

Once the ambulance arrived, Sergeant Mars said the paramedics requested that they remove the handcuffs. Sergeant Mars said he did not want to remove the handcuffs for fear that Antonio would start fighting again.

Sergeant Mars said he sent Officer Corson in the ambulance in the event that Antonio began resisting again.

Sergeant Mars said two Bridgeton Police Officers arrived after Antonio was under control and they followed the ambulance.

Detective Sanders then spoke to Sergeant Mars regarding injury to him, which was sustained during the incident. A long scratch was visible to his right forearm as well as a large bruise to his forearm area. His knees were also bruised.

Detective Sanders then spoke with Officer Kenner while on scene and requested that he provide a statement regarding the incident.

Officer Kenner explained that he was on patrol when he heard that Sergeant Mars was on a traffic stop for a suspect intoxicated driver. The call was next to Officer Kenner's sector, therefore he responded to assist with the stop. Officer Kenner explained that he did not respond

in an expedient manner, because Sergeant Mars had not yet called stating he was in need of emergency aid.

When Officer Kenner arrived he said he observed Sergeant Mars on the ground with the suspect. Antonio was reportedly "thrashing", "kicking" and trying to get his handcuffs in front by swinging his hands under his feet. Officer Kenner ran to Sergeant Mars' aid.

Officer Kenner explained that he tried to help pull the suspect's hands back behind his back, but Antonio was resisting and grabbed Officer Kenner's leg pulling him forward. Officer Kenner explained that Antonio's level of strength did not seem natural and he and Sergeant Mars were still unable to control Antonio. Officer Kenner said Sergeant Mars told him to back away as Sergeant Mars again deployed his taser utilizing an affixed taser cartridge. Officer Kenner said Antonio still would not comply. At this point, Officer Kenner said he attempted to deploy his taser, but the taser appeared to malfunction.

Officer Kenner said Officer Corson then arrived to assist. Officer Kenner said he utilized his ASP baton as a "lever" to finally pull Antonio's arms up behind his back. Officer Kenner said it took all three officers to accomplish this task.

When Antonio's arms were finally secured behind his back, Officer Kenner said Antonio finally stopped resisting. Officer Kenner said Antonio was rolled to his back after which Antonio rolled to his side on his own. Officer Kenner said Antonio was conscious, breathing heavily and was not talking.

Regarding injury to Antonio, Officer Kenner said he observed a small laceration above his eye. Sergeant Mars called for an ambulance for Antonio and to access Sergeant Mars. Antonio reportedly remained conscious and Officer Kenner said the suspect looked at him several times.

Officer Kenner explained that once the ambulance arrived, Officer Kenner had no further contact with Antonio.

Detective Sanders then spoke with Officer Corson while on scene and requested that he provide a statement regarding the incident.

Officer Corson explained that he received a phone call from dispatch requesting that he respond to assist Sergeant Mars with a traffic stop.

He said at the time of this initial call he was given very little information regarding the call. After further contact with dispatch, Officer Corson said he was directed to expedite his response.

As Officer Corson arrived, he said he observed that Sergeant Mars and Officer Kenner were trying to control Antonio; however, Antonio was attempting to pull his hands under his feet. Antonio was also reportedly in a position that he could kick and resist. Officer Corson said he approached and grabbed Antonio's arms and tried to pull Antonio's hands back up behind his back. Officer Corson explained that Antonio seemed unusually strong and he initially could not move the suspect's hands.

Eventually, Officer Corson said the three officers collectively were able to control the suspect's arms utilizing an ASP baton. Now with the Antonio's arms under control, he rolled to his side and an ambulance was called.

Once EMS personnel arrived on scene, they prepared Antonio for transport. Sergeant Mars directed Officer Corson to ride with the ambulance. Officer Corson explained that Antonio was not combative at this point.

Antonio remained conscious during the ambulance ride to DePaul Hospital. Once at the emergency room, Officer Corson said he removed the handcuffs from the suspect per the request of medical staff. Officer Corson said he concluded his assistance with the matter at that time.

Following the cursory interviews of the officers on scene and after the completion of the scene investigation, Detective Sanders requested that the Hazelwood Officers accompany St. Louis County Detectives to St. Louis County Police Headquarters for formal interview.

Prior to responding to police headquarters to interview the Hazelwood Officers, Detective Sanders was provided with evidence related to the incident that had been previously gathered by Hazelwood Police Department. The evidence was related to the investigation that had been conducted by Hazelwood Police until the matter and been remanded to the St. Louis County Police Department.

These items were later reviewed, packaged as evidence and remanded to the St. Louis County Police Property Control Unit for storage. The items are described as follows:

Compact disc recorded audio statement from treating Paramedic Palermo

Compact disc recorded audio statement from treating Paramedic Cantrell

Compact disc recorded audio from 911 traffic Hazelwood Police

Compact disc recorded audio from 911 traffic Bridgeton Police

Compact disc recorded audio from Sergeant Mars' recorder capturing audio of incident

Written statement provided by Paramedic Cantrell

Written statement provided by witness Eric Rapa

Written statement provided by witness Mark Wilson

Bridgeton Police Department CAD call report

Robertson Fire Department call summary

Copies of Hazelwood Crime Scene Photos

Hazelwood Taser download information for Sergeant Mars' taser

Hazelwood Taser download information for Officer Kenner's taser

After returning to St. Louis County Police Headquarters at approximately 10:00 PM, Detective Sanders and Detective Percich again contacted Sergeant Mars, Officer Kenner and Officer Corson for interview.

The interviews were conducted between the approximate times of 11:00 PM on July 11, 2013 and 12:30 AM on July 12, 2013. Detectives first interviewed Sergeant Mars, followed by Officer Kenner and then Officer Corson. The officers reiterated their statements that they had provided while on scene.

The statements provided by the officers were captured on digital audio recorder, later downloaded to compact disc and remanded to the St. Louis County Property Control Unit for storage. For full details of the interviews in verbatim, reference should be made to the compact discs of the interviews.

Following these interviews, Detective Sanders seized Officer Kenner's department issued taser (X26, serial number X00-374802). The taser was packaged by Detective Sanders for further analysis.

Detective Sanders was informed that Sergeant Mars' taser was being analyzed at the Hazelwood Police Department and was not in his possession.

Detective Sanders requested that Captain Jewson gather additional items of possible evidentiary value. The following items were requested following the interviews with the Hazelwood Officers.

Taser X26, serial number X00-147350, belonging to Sergeant Mars

Taser X26 camera, V08-00474, belonging to Officer Kenner's taser

Mobile Data Terminal Downloads (officer laptop vehicle computer)

Audio recorder tape of Officer Kenner's personal audio recorder

Hard drive for Sergeant Mars, Officer Kenner and Officer Corson's car camera system

Captain Jewson was informed that Detective Schafer would pick up these items on Friday, July 12, 2013.

Captain Jewson and the Hazelwood Officers involved in the incident, departed St. Louis County Police Headquarters at approximately 1:00 AM.

Following these interviews, Detective Sanders learned that Detective Schafer and Detective Bradley had contacted potential witnesses to the incident as requested. They provided Detective Sanders with a synopsis of their investigative findings described as follows:

At approximately 9:40 PM, Detectives Schafer and Bradley were directed by Detective Sanders to contact and interview witnesses Eric Rapa and Mark Wilson. Accordingly, Detective Schafer telephoned Eric Rapa, who agreed to be interviewed by detectives at his residence.

At approximately 10:45 PM, Detective Schafer and Detective Bradley responded to 7 Spring Hill Circle in Wright City, Missouri 63390 and directed their attention to Eric Rapa who identified himself as follows:

Eric Charles Rapa (hereafter referred to as Eric)

White Male

DOB: [REDACTED]/1983  
[REDACTED]

Home Phone: 637-745-7820

Cellular telephone: 636-352-3406

Employer: United Health Care-Customer Service

Eric's statement was captured on Detective Schafer's digital audio recorder. Eric's recorded statement was later downloaded to a compact disc, which was packaged as evidence. Detective Schafer released the evidence to the St. Louis County Property Control Unit.

The following is not a transcription of Eric's statement, but a summary. For full details in regard to Eric's statement in verbatim, reference should be made to the compact disc.

Eric stated he and his fiancée, Tiffany Callahan, were on their way to pick up their children when they approached congested traffic on Aubuchon Road. He observed several brake lights in front of their vehicle and several vehicles had pulled over onto the side of the road.

Eric stated they initially believed there was a traffic accident ahead so they pulled onto the roadside. Tiffany was operating a Kia Sedona and remained inside the vehicle, while Eric exited the front passenger seat to investigate the reason for the traffic congestion.

Eric stated he observed a black male exit a sport utility vehicle (SUV) and began stumbling. The male extended both arms outward to his sides and was walking in/out of traffic. Eric described the male as having a large stature. He also noted the male appeared confused.

Eric called out to the male and asked if he was okay. Eric stated he couldn't hear the male's response, so he approached him. Eric again asked him if he was okay. The male responded, "I'm just seeing what is going on". Eric then asked him if he was hurt to which the male responded, "No, I'm just seeing what is going on". Eric added the male's speech was slurred and he appeared intoxicated.

Eric asked the male if he (Eric) could move his vehicle, due to it partially blocking the eastbound traffic lanes of Aubuchon road. The male stated that would be fine. Eric also asked if there were additional occupants in the vehicle, which the male stated there were not. Eric stated the male stood directly behind his SUV so he had to ask him to move so he could park his vehicle in a safe location.

While parking the male's vehicle, a Hazelwood Police Officer in uniform responded in a marked police vehicle with the emergency lights activated.

Eric advised the police vehicle was positioned behind the vehicle he was operating. Eric explained to the officer that the original driver of this vehicle was actually the black male and that he (Eric) moved the vehicle off the roadway for safety concerns. Eric then complied with the officer's instruction to turn off the vehicle.

Eric stated the police officer then contacted the black male. Eric stated the police officer asked him if he had been drinking alcohol and if he had been operating the vehicle. The black male stated he had been drinking alcohol and operating the vehicle. The police officer advised the male he was under arrest and placed a single handcuff on his right wrist. The police officer ordered the male to place his left arm behind his back, but the male refused to comply. Eric described the male's

actions as "moving away" from the officer and not allowing the officer to handcuff his left wrist.

Eric estimated the officer instructed the male to place his arm behind his back five times. As a result of not complying with the officer's commands, the male was briefly wrestled onto the ground by the officer.

The officer then placed the remaining handcuff on the male's left hand.

Eric observed a small trickle of blood on the male's forehead as he lay on the ground. The black male was rested on his stomach with his face forward. The officer asked the male to roll over so he could place him in his vehicle, but he did not respond to the officer.

Eric stated he provided a statement to the officer with regard to his observations. Eric added while the male was handcuffed, he pulled a cell phone out of his pocket. The speakerphone appeared to be activated and Eric believed the male was speaking with his wife; the male stated his wife knew where he was. He also recalled a female kept stating "What?"

The officer contacted the male and advised he would talk to his wife as soon as he could. The officer took the male's cell phone and continued to obtain Eric's statement.

Eric stated the officer tried to place the suspect on his side, but he was uncooperative and wouldn't allow the officer to move him. Eric offered the officer assistance in moving the suspect, but the officer declined, advising additional officers were en route.

Eric departed having last seen the officer and suspect in the gravel driveway, on the driver side of the officer's vehicle.

Eric stated the suspect appeared to be under the influence of alcohol and/or drugs. Eric explained that during the encounter, the officer acted reasonably.

Eric was unable to provide any further information and the interview was concluded.

Upon review of Eric's statement, it was consistent with his original statement to the Hazelwood Police Department.

At approximately 11:30 PM, Detective Schafer and Detective Bradley then directed their attention to Tiffany Callahan who identified herself as follows:

Tiffany M. Callahan (hereafter referred to as Tiffany)

White Female

DOB: [REDACTED]/1981

[REDACTED]

Home telephone: 637-745-7820  
Cellular telephone: 314-583-5889

Tiffany reported she and Eric were on their way to pick up their children. While driving on Missouri Bottom Road, a few cars ahead started braking and just stopped. A female exited the vehicle in front of them and started running toward two vehicles in front of hers. Tiffany's fiancé, Eric, exited the vehicle to see if anyone was injured. Tiffany remained in the vehicle.

When the officer arrived, Tiffany moved her vehicle in front of the two vehicles, which were ahead of hers. Tiffany observed a black male in handcuffs, on the gravel driveway. Tiffany observed the suspect reaching for a phone in his pocket. The male was talking on his phone, trying to communicate with a female. Tiffany recalled hearing her voice, but did not know what she was saying. Tiffany believed the female could not understand the male.

Tiffany stated while seated in her vehicle, she informed the officer that the male had his phone. The officer replied he would take care of it upon getting Eric's statement. The officer then asked them to stay until he could get the male in his vehicle.

Tiffany stated the male did not want to get off the ground willingly. Since the male remained on the ground, the officer advised Eric and Tiffany they could leave and he would wait for backup officers. Eric returned to the vehicle and they departed.

Tiffany described the subject as a tall, black male. She stated he seemed "out of it" and had "no idea what was going on". The male's speech was slurred and he did not appear to comprehend.

Tiffany remained in her vehicle the entire time with the windows rolled down so she could hear what was happening.

Tiffany stated the male did not appear injured and was able to move enough to at least get his phone out of his pocket and up toward his hip while handcuffed. She also stated the male made no complaints.

Tiffany advised she and Eric never called 911, but believed the female occupying the vehicle in front of theirs did; she appeared to get off the phone when police responded.

Tiffany stated the officer was in a police uniform and occupying a marked police vehicle with the emergency lights activated.

Tiffany stated the male had to be under the influence of a mixture of drugs and alcohol due to his incoherent state.

Tiffany had no further information to report and the interview was concluded.

At approximately 12:37 AM, Detective Schafer and Detective Bradley responded to the residence of additional witness' of the incident, located at 2409 Middle Valley Drive Florissant, Missouri 63031.

The witnesses are fully identified as follows:

Mark L. Wilson (hereafter referred to as Mark)

White Male

DOB: [REDACTED]/1967

SSN: [REDACTED]

2409 Middle Valley Drive  
Florissant, Missouri 63031

Telephone: 314-707-3704

And

Kathy D. Wilson (hereafter referred to as Kathy)

White Female

DOB: [REDACTED]/1960

SSN: [REDACTED]  
[REDACTED]  
[REDACTED]

Telephone: 314-707-0852

Detective Bradley and Detective Schafer directed their attention to Mark.

Mark stated on the day of the incident, he was driving in his vehicle with his wife, Kathy, and his brother in law, who is fully identified as follows:

Anthony Ruzzo (hereafter referred to as Anthony)

White Male

DOB: [REDACTED]/1956  
[REDACTED]  
[REDACTED]

Telephone: 417-860-9136

Mark stated he was driving northbound on Charbonier Road at Riverwood Estates Drive where he stopped at the four-way intersection at a stop sign. He observed what he believed to be a gray Chevrolet Suburban stopped for an extended period of time facing the wrong way in his lane of traffic.

He stated the grey Suburban then slowly drove towards his vehicle across the intersection and returned to its lane of traffic and it passed his vehicle. He stated when the vehicle passed, he observed a thin, middle aged, black male, later identified as Antonio, operating the vehicle and he did not observe any other occupants inside the vehicle.

He stated that due to his observations, he turned his vehicle around behind this vehicle and followed this vehicle south on Charbonier Road.

He stated he observed this vehicle cross the center lane of traffic several times and it was apparent something was wrong with the driver, so he called 911. Mark reported his observations and provided the 911 dispatcher with the license plate of the vehicle.

He stated the Suburban continued to swerve and failed to maintain a single lane. At several points, he almost struck other vehicles head on. He stated the Suburban then eventually reached the incident location and Antonio parked the vehicle on the side of the road, partially obstructing the traffic lane. He stated Antonio then exited the vehicle and he observed Antonio appeared to be very unstable on his feet and disoriented. Mark added another male motorist stopped with him and contacted Antonio asking if he was okay. He stated the other male motorist asked Antonio if he could move his vehicle since the vehicle was blocking traffic and Antonio acknowledged he could. Mark stated Antonio was holding a cellular phone in his hand during this time and he observed Antonio's eyes appeared to be glassy and his speech was slurred.

He stated the other male motorist moved Antonio's vehicle to a gravel area off of the road and then Sergeant Mars arrived on scene wearing full police uniform and driving his marked patrol vehicle with his overhead emergency lights illuminated.

Mark stated Sergeant Mars then contacted Antonio who continued to tell Sergeant Mars he was intoxicated and Sergeant Mars learned he was the subject operating the vehicle.

Mark stated at this point he was standing at the rear bumper of Sergeant Mars' patrol vehicle while Sergeant Mars and Antonio were standing near the driver's side door of the patrol vehicle.

Mark stated Sergeant Mars then advised Antonio he was under arrest for driving under the influence and he instructed Antonio to place his arms behind his back. He stated Antonio allowed Sergeant Mars to place a handcuff on one of his arms, but as he attempted to handcuff his other arm, Antonio suddenly pulled away from Sergeant Mars several times not allowing him to handcuff him. He stated Sergeant Mars continually ordered Antonio to stop resisting and to place his hands behind his back

and Antonio would not comply with his commands. He stated Sergeant Mars then performed "a take-down move" and placed Antonio onto the ground on his stomach and successfully handcuffed both of Antonio's arms with handcuffs and Antonio appeared to stop resisting. Mark added during most of the incident, he could hear Antonio stating his wife was on the phone several times.

Detective Bradley asked Mark if Antonio's demeanor was the same after he was handcuffed as before and he stated Antonio was acting the same as he was prior to be arrested.

Mark stated he had a conversation with Sergeant Mars asking if he needed any further assistance, to which Sergeant Mars stated he had other officers on the way and he did not need any assistance. He stated he then entered his vehicle and drove past the incident location and last observed Sergeant Mars was assisting Antonio in sitting up. Mark added he was the only person that exited his vehicle, as Kathy and Anthony remained in his vehicle.

Detective Bradley and Detective Schafer conducted a formal interview with Mark, which was captured on audio digital recorder. During the interview, Mark re-iterated his above statement.

The interview was later downloaded onto a compact disc and conveyed to the Property Control Unit for storage. For full details of the interview of Mark in verbatim, reference should be made to the seized compact disc.

Detective Bradley and Detective Schafer then directed their attention to Kathy. Kathy provided a statement consistent with Mark's above documented statement and stressed the way that Antonio was driving, it was apparent he was intoxicated, due to him almost striking several cars and objects along the roadway. Kathy then stated when they arrived at the incident location, she remained in the vehicle with Anthony and did not witness the arrest of Antonio. She stated while seated in her vehicle, she initially observed Antonio appeared to be intoxicated because he appeared to not know where he was and was not walking straight.

She stated when Mark arrived back in their vehicle, they departed from the incident location. She last observed Antonio was handcuffed, sitting on the ground, near the police vehicle. She stated the last time she saw Antonio he appeared to be talking to Sergeant Mars and attempting to stand up.

Detective Bradley and Detective Schafer conducted a formal interview with Kathy, which was captured on audio digital recorder. During the interview, Kathy re-iterated her above statement.

The interview was later downloaded onto a compact disc and conveyed the Property Control Unit for storage. For full details of the interview of Kathy in verbatim, reference should be made to the seized compact disc.

Detective Sanders also asked Detective Schafer to conduct a follow-up investigation at DePaul hospital to determine if any personal items belonging to Antonio Johnson remained.

Accordingly, Detective Schafer arrived at DePaul Hospital at 2:20 AM and contacted Security Officer Kristi Manetzke. Detective Schafer asked Security Officer Manetzke if any personal items belonging to Antonio remained. Security Officer Manetzke obtained the valuables inventory form of Antonio, which indicated eighteen dollars had been inventoried. This currency had since been released to Latasha Johnson, who signed the form.

Detective Schafer then inquired if any additional items belonging to Antonio Johnson remained in the room he was previously being treated.

Security Officer Manetzke then telephoned Registered Nurse Jan Wuebbeling, who spoke with Detective Schafer and advised the following:

Nurse Wuebbeling advised she was the charge nurse for Antonio Johnson while he was being treated in room 329. Nurse Wuebbeling advised no personal items belonged to Antonio remained at the hospital. Nurse Wuebbeling recalled Antonio was clad in a black shirt, baggy jeans, and a brown, leather belt. The black shirt was cut and disposed of during treatment. The jeans were cut and underneath him. Nurse Wuebbeling stated she checked all his pockets, noting there were only coins in his pocket. The jeans were placed in a closet, but have since been taken by housekeeping or the patient's family.

Nurse Wuebbeling stated she did not observe blood on any clothing belonging to Antonio. The only injuries she observed was a laceration near his right eyebrow, which was bandaged, and a tear on his left wrist.

She stated she never saw a cell phone and was unable to locate any items of identification on Antonio's person.

Nurse Wuebbeling was unable to provide any further information and the interview was concluded.

Subsequently, Detective Schafer departed DePaul Hospital.

Detective Sanders concluded his preliminary investigation of the incident on July 12, 2013 at approximately 2:00 AM.

Continuing with the investigation on Friday, July 12, 2013, at approximately 8:00 AM, Detective Patrick Hokamp, DSN 3476, Division of Criminal Investigation, Bureau of Crimes Against Persons, attended the post-mortem examination of Antonio Johnson at the St. Louis County Medical Examiner's Office, located at 6039 Helen Avenue. Doctor Gershom Norfleet performed the examination.

Detective Rob Hirtz, DSN 2401, and Detective Michael Kaemmerer, DSN 3481, Division of Criminal Investigation, Crime Scene Unit, were present for the post-mortem examination. See Detective Hirtz' supplemental report for a full description of his investigation.

Doctor Norfleet said the cause of death and manner of death were undetermined pending the toxicology results. See St. Louis County Medical Examiner's report 13-4672 for the official findings of Doctor Norfleet's examination.

Upon receiving Doctor Norfleet's conclusion, Detective Hokamp departed the Medical Examiner's Office at approximately 10:50 AM.

Also on Friday, July 12, 2013, at approximately 3:00 PM, Detective Schafer responded to the Hazelwood Police Department and contacted Captain James Hudanick, DSN 253, of the Hazelwood Police Department.

Captain Hudanick provided Detective Schafer with the following items of evidence:

Taser X26, black and yellow in color, serial number X00-147350, Sergeant Mars

Taser cam, black in color, serial number X08-004794, Officer Kenner

Hard drive in metal box, serial number C00952513

Hard drive in metal box, serial number C00936807

Hard drive in metal box, serial number C00936833

USB memory device, portable, red in color, containing MDT downloaded information

Microcassette containing Officer Kenner's audio recording

Compact disc containing 911 recordings and radio traffic

Compact disc containing interviews of Paramedics

Detective Schafer packaged the taser X26, taser cam, and three hard drives as evidence. This evidence was released to the Property Control Unit for storage.

The USB memory device and micro-cassette were remanded to Detective Sanders, which he later reviewed and also packaged as evidence.

This concluded Detective Schafer's assistance in this investigation.

Following the initial investigation, Detective Sanders began to review the documents provided by Hazelwood Police Department.

Detective Sanders first reviewed the recorded audio of the incident that was captured on Sergeant Mars' audio recorder. The recording was approximately sixteen minutes in length and encompassed from his initial approach of Antonio until paramedics were arriving on scene.

Detective Sanders found that the contents of the recording were consistent with the statements provided by Sergeant Mars, Officer Kenner and Officer Corson.

Detective Sanders noted Sergeant Mars was repeatedly giving loud verbal commands for Antonio to put his hands behind his back. In addition, Sergeant Mars was instructing Antonio to stop kicking and fighting.

At approximately eight to nine minutes into the recording, Detective Sanders noted what sounded like Sergeant Mars utilizing his ASP baton to strike the suspect as Sergeant Mars had stated. Detective Sanders noted what sounded like several taser deployments as also stated by Sergeant Mars.

For full details of the recording in verbatim, reference should be made to the included compact disc of the recording.

Detective Sanders reviewed the documents provided by Hazelwood, which outlined the taser deployment data for both Sergeant Mars and Officer Kenner.

In reference to Sergeant Mars taser data for his X26 taser, serial #X00-147350, Detective Sanders noted his taser was deployed thirteen times during the incident. Five deployments were noted, followed by an approximate three minute gap (possibly during the reported ASP baton strikes); an additional eight deployments were then documented over an approximate two minute period.

Sergeant Mars' taser was not outfitted with a video camera, which was described as standard for a supervisor.

In reference to Officer Kenner's taser data for his X26 taser, serial #X00-374802, Detective Sanders noted that no deployments were captured during the incident.

Taser video footage for Officer Kenner's taser camera captured an approximate five seconds of video that did not show Antonio or officers.

Detective Sanders later requested that St. Louis County Department Armorer John Bozarth, DSN 2618, conduct a second download of Sergeant Mars' and Officer Kenner's seized tasers to compare to the previously downloaded information completed by Hazelwood Police Department.

The data was consistent with the data downloaded by Hazelwood Police Department as indicated above. This data was downloaded to a written report, which Detective Sanders later packaged as evidence and remanded the report to the St. Louis County Property Control Unit for storage.

Next, Detective Sanders, with the assistance of St. Louis County Detective James Karase, DSN 3472, reviewed the footage captured on the seized hard drives of the car camera systems for Sergeant Mars', Officer Kenner's and Officer Corson's above described vehicles. It was determined that Sergeant Mars' car camera was not functioning at the time of the incident.

Officer Kenner's camera system was powered on; however, no footage was captured at the time of the incident. It should be noted that the camera only records when the emergency lights of a police vehicle are activated. Since Officer Kenner did not respond with emergency lights and siren, his camera was not activated.

It should also be noted that Officer Kenner had a personal audio recorder with him during his scheduled shift. St. Louis County Police later seized the cassette, however, it was determined that the recorder did not capture the audio of the incident.

Detective Sanders further reviewed the copies of the crime scene photographs taken by Hazelwood Police Department immediately following the incident.

Photographs of Sergeant Mars' injuries depicted what appeared to be abrasions and contusions to his knees and his right forearm. A thin laceration or scratch was also visible, which spanned the length of his right forearm. It should be noted that these injuries were more

pronounced at the time of Detective Sanders' interview with Sergeant Mars on June 11, 2013.

The photographs also captured details of the suspect vehicle's exterior and interior. Detective Sanders noted an apparent empty bottle of Boone's Farm Strawberry Hill wine inside the suspect vehicle. Also noted in the photographs was a silver cellular telephone located on top of the center console.

The vehicle was reportedly released to the suspect's wife prior to St. Louis County Police involvement in the investigation. The suspect's wife was fully identified as follows:

Latasha T. Johnson (hereafter referred to as Latasha)

Black Female

DOB: [REDACTED]/1977

SSN: [REDACTED]

Address: [REDACTED]

Telephone: 314-757-4471

Latasha spoke to Hazelwood Officers after the incident both by phone and in person. She indicated to Lieutenant Michael Brady, DSN 234, and Detective Brian Wilcox of Hazelwood Police Department, that her husband is known to use PCP. She further indicated that she was on the telephone with Antonio and was attempting to pick him up when he was arrested.

For details of her statements to these officers, reference should be made to the supplemental reports documented in Hazelwood Police report number 13-2803.

Detective Sanders attempted to contact Latasha for further follow-up and interview on July 21, 2013. A voicemail message was left for Latasha. On July 22, 2013, Attorney Al Watkins contacted Detective Sanders. Mr. Watkins stated he would arrange a meeting with his client Latasha and Detective Sanders.

After an additional call on July 23, 2013 to Mr. Watkins, it was determined that Latasha had sought Bosley Law Firm as attorney representation. Detective Sanders attempted to contact Latasha on July 23rd and learned that her cellular telephone was disconnected.

Detective Sanders left messages with Bosley Law Firm on July 29, 2013 and August 1, 2013 in an effort to contact and interview Latasha. As of August 6, 2013, the calls have gone unanswered.

Continuing with additional follow-up, Detective Sanders contacted two Bridgeton Police Officers who had reportedly responded to the scene after Antonio was fully restrained and awaiting paramedics to arrive.

On July 22, 2013, Detective Sanders responded to the Bridgeton Police Department and contacted these two officers identified as Officer Matthew Black, DSN 227, and Officer Michael Johnson, DSN 242.

Both officers provided an audio-recorded statement that was later downloaded to compact disc. The statements were properly packaged as evidence and remanded to the St. Louis County Property Control Unit for storage.

In summary, Officer Black and Officer Johnson said they were dispatched to respond to assist Hazelwood Officers. They expedited their response after hearing that Sergeant Mars was in need of aid. When they arrived, both officers explained that Antonio was handcuffed on the ground, was conscious and was not resisting arrest. Antonio was placed on the ambulance, which the officers followed to DePaul Hospital. The officers said they were not involved further in the incident and had nothing further to add.

On July 23, 2013, Detective Sanders prepared a Grand Jury Subpoena request for medical records related to Antonio's care. The records requested included the dates of July 9, 2013 to July 11, 2013.

It should be noted that Detective Sanders received the requested records from DePaul Hospital on August 5, 2013. A review of the records indicated that a drug screen of Antonio revealed the presence of Ethanol. A drug panel of Antonio's urine also indicated the presence of Phencyclidine (PCP).

For full details of his care, reference should be made to the described documents. The medical documents consisting of 569 pages were packaged as evidence and remanded to the St. Louis County Property Control Unit for storage.

Lastly, Detective Sanders reviewed the written witness statements provided to Hazelwood Police Department by witnesses Eric Rapa and Mark Wilson. Their written statements were consistent with the above-described statements, which were later provided to Detective Schafer and Detective Bradley as reported earlier in this report.

On July 28, 2013, Detective Sanders contacted Paramedics Daniel Cantrell and Kary Palermo of the Robertson Fire District. Detective Sanders reviewed the recorded interviews of the paramedics as well as the written

statements provided to Hazelwood Police, which were later provided to Detective Sanders.

Both paramedics stated that they had no further information to add regarding the incident.

In summary, they said Antonio was conscious during initial treatment.

While transporting Antonio to DePaul Hospital for treatment, his condition deteriorated until DePaul Hospital staff further cared for him.

At the time of this report, post-mortem and toxicology results for Antonio were not available. When the results are made available, Detective Sanders will prepare a supplemental report detailing the results.

The facts and circumstances of the incident and subsequent investigation will be forwarded to the St. Louis County Prosecuting Attorney's Office for their review.

NARRATIVE

On 7/11/13 /I was requested to respond to the above address to assist in the investigation of a suspicious death. This request was made by Det Sanders, 3485, on behalf of the Hazelwood Police Dept.

During this investigation I captured 40 digital images showing the following:

1 and 40 show the case information.

2-20 show overall and intermediate views of marked Hazelwood Police cars HPD 101, HPD 102, and HPD 136.

21-28 show overall views of the location (4600 Aubuchon Rd), and the location/position of the vehicles as reported by Hazelwood Police Officers.

29-39 show overall, intermediate, and close-up views of collected evidence.

I then responded to DCI, located at 7900 Forsyth, and captured the following images:

1 and 19 show the case information.

2-18 show overall, intermediate, and close-up views of injuries to the Hazelwood police officer.

The media card was forwarded to the St. Louis County Photo Lab.

During this investigation I collected the following items of evidence:

1. Apparent TASER wires

2-4. Three TASER cartridge doors.

DV1. Digital video of the scene recorded at approx 9PM, on 7/11/13.

The above listed items of evidence were conveyed to the St. Louis County Crime Lab where they were properly packaged and retained as evidence.

No further.

SUPERVISOR REVIEW	THOMAS LARKIN	DSN 1694	10/02/2013 08:47 WEDNESDAY

**NARRATIVE**

On Friday, September 20, 2013, at approximately 1:10 PM, Detective Greg Sanders and Detective Aaron Schafer, DSN 3569, responded to 7800 Forsyth Boulevard, the Law Offices of Kodner Watkins & Kloecker.

Detectives met with Latasha Johnson who is identified in a previous supplement as the wife of suspect Antonio Johnson. Also present for the meeting was Latasha's attorney, Michael Schwade.

Detective Sanders questioned Latasha regarding Antonio's history of drug use and the specifics of the incident on July 9, 2013.

Latasha said that on July 9, 2013, Antonio dropped her off at work at approximately 11:00 AM. Antonio was reportedly supposed to pick up Latasha at 7:00 PM, but he did not respond as planned. She said she called Antonio with no answer initially and then called her brother in-law, Kevin Johnson (DOB: [REDACTED]/1974), who responded and picked her up.

Latasha said she did reach Antonio at approximately 9:04 PM, by calling his AT&T cellular telephone (314-743-7004). She said it sounded like Antonio said, "Here she is", but the phone was then powered off.

Latasha said the phone was not recovered when the suspect's vehicle was returned to her. Detective Sanders asked Latasha if the telephone that was located on the center console (depicted in Hazelwood crime scene photographs) belonged to Antonio. She said that phone belonged to a friend of Antonio's who she could only identify as Kenny. Latasha said she did not know where Antonio's phone was located.

Latasha said on the night of the incident she called various police departments and then contacted Hazelwood Police Department. She said she spoke to an unknown officer who informed her of Antonio's location.

Latasha later responded to DePaul Hospital where she learned that Antonio was in critical condition. Latasha said she also spoke with Hazelwood Detective Wilcox while Antonio was admitted at DePaul Hospital.

Regarding drug use by Antonio, Latasha said Antonio uses "PCP" and drinks alcohol from time to time. Latasha said Antonio has never been violent in her presence when he was under the influence of PCP. She described Antonio as "acting like a child" when he was under the influence of PCP and she did not want to be around him.

On Monday, September 30, 2013, Detective Sanders received the results from the post-mortem examination, which was conducted by Doctor Gershom Norfleet, of the St. Louis Medical Examiner's Office. The toxicology

laboratory analysis was performed by Dr. Christopher Long, of the St. Louis University Toxicology Laboratory.

The results of the toxicology analysis proved negative for alcohol; the blood and urine drug screen indicated the following:

Blood: Phencyclidine 220 Nanograms/ML

Urine: Phencyclidine-greater than 500 Nanograms/ML

Based on the noted findings, Doctor Norfleet determined the cause of death to be multiple organ failure secondary to hypotension, due to/or as a consequence of Hypertensive heart disease; exacerbated by struggle and phencyclidine intoxication. The manner of death was determined to be Accident.

This report will be forwarded to the St. Louis County Prosecuting Attorney's Office for review.

Any further information obtained related to this incident will be presented in an additional supplement to this report.

**NARRATIVE**

On November 4, 2013, Detective Sanders received a letter from the St. Louis County Office of the Prosecuting Attorney regarding the disposition of this investigation.

The letter from Chief Warrant Officer Patrick Monahan advised that the officer's actions were in response to a resisting arrest, an assault and a failure to comply; therefore, no further action would be taken in reference to this incident.
